REPORTED EXPRESSLY for the STATESMAN.

Last Night's Dispatches.

Diplomatic Reports-From General Grant, Etc.

Washington, Dec. 19.—Mr. Seward's diplomatic report will be ready for the press in a day or two. The Evening Star has the following: The

authorities here have dispatches from Gen. Grant, at Chattanooga, dated last night at nine o'clock. They do not indicate any recent change in the state of affairs there. Gen. Grant is in constant and direct telegraphic communication with Gen. Foster at Knoxville, and had there been fighting between Gen. Longstreet's force and ours pursuing him, as the press dispatches from Cin-cinnati state, Gen. Grant would doubtless have sent such dispatches here. The f. ct that he says nothing about such engagement indicates the belief that the statements via Cincinnati, referred to above, are much ex-

Two hundred and twelve rebel deserters were sent from the old Capitol prison this morning to Philadelphia, to take the oath of allegiance. This makes four hundred and eighteen who have been sent to the same place this week for the same purpose.

From Charleston.

NEW YORK, Dec. 19.—The Tribune's Folly Island correspondent writes, under date of Dec. 16th, that on Saturday morning, while the tide was receding, one of the privates of the 3d Rhode Island Battery dis-eovered from Fort Putnam on the beach. what he thought might be a brass field piece. He asked and and obtained permission to go and see. He armed himself with a spade, and a few minutes revealed a beautiful brass twelve-pounder. Twelve men were immediately detailed to carry it into the fort, which was done successfully under a brisk fire from Moultrie. As soon as it was in the fort it was mounted in a good a brisk fire from Moultrie. As soon as it was in the fort it was mounted in a good position, ready at a moment's notice to be used against its old friends. The spade in the course of the day brought to the surface five hundred pounds of solid shot, that best suited the calibre of the piece.

The storm and high tides have had the effect of washing away some of Admiral Dahlgren's greatest enemies, Morris Island for a mile is lined on the beach with immense logs, thirty feet long and eighteen inches thick, fastened together by very strong bands of iron. No traces can be discovered of where torpedoes have been fastened. Now, if ever, is the time for the Admiral to make the attempt to go into Charleston.

Mosby's Raid-Meade to Remain in Command.

New York, Dec. 19.—The Washington correspondent of the Post says: The raid of the guerrilla Mosby upon Fairfax Court House startled the community, and caused some anxiety at the War Department. It is a sample of what may be expected during the winter, unless Gen. Meade falls back near to Washington or strengthens, his communications. The army will be compelled to fall back if these raids continue, and it is probable that Gen. Meade has contemplated

to fall back if these raids continue, and it is probable that Gen. Meade has contemplated a retrograde movement for some time.

The rumors of the removal of Gen. Meade have died out, and it is now generally believed he will remain in command for the winter. The fact that Gen. Meade occupied a perfect independent position, and offered to resign again and again, has helped him very much with the President. He has boldly defended his recent campaign, not even asking for lenient judgment upon it. The whole subject is dropped for the present.

Operations on the Texas Const.

Boston, Dec. 19.—The special corressions of the residue of the present of the special corressions.

Boston, Dec. 19.—The special correspondent at New Orleans of the Traveller, under date of the 10th inst., says General Washburn holds the coast of Texas from the Rio Grande to within one hundred miles of Galveston. Another division of the 13th corps starts for the Texas coast today, and the expectation is that Galveston is the next place to be put down in the history of the war as having been reduced by tory of the war as having been reduced by the Federals.

General Franklin is still at New Iberia with about four divisions. General Weitzel goes North to join General Butler's command in a few days. It is not known who takes his place.

The Chesapeake---The Pirates at Liberty.

HALIFAX, Dec. 19 .- 10 P. M .- At 10 o'clock this P. M., the steamer Chesapeake and prisoners on board, were delivered over to the Government. Upon the arrival of the boat containing the prisoners at Queen's wharf, the excitement became intense. The prisoners were immediately seized by a boat's crew in the ship and hurried off by the crowd in attendance. Upon Government officers moving to arrest the prisoners under a war-rant, they were seized and held by promi-nent citizens and rendered powerless to perform their duties. The crowd finally suc-ceeded in getting the pirates off in a small boat, which forthwith moved down the bay. The affair causes the greatest excitement throughout the city. What course the au-thorities will pursue in the matter it is impossible to say. The pirates are all at lib-erty, scattered throughout the province.

CAIRO, Dec. 19 .- The rebel Gen. McCrea who has been ranging between Arkansas and White rivers, was attacked some time since at Jacksonport by Col. Black, 23d Missouri, and the enemy repulsed. Colonel Black captured three pieces of artillery. Gen. Carr has assumed command of the 2d division of the Army of Arkansas.

New York, Dec. 19.—A special to the Tribune from headquarters Army of the Potomac 18th, says: Last Sunday, as Col. Harding of the 12th Pennsylvania Reserve, Lieut.-Custin, of the same regiment, and Lieut.-Col. Dave, of the 5th Pennsylvania, were riding along the railroad near Cat-lett's Station, they were fired on by seven guerrillas secreted in the woods, Colonel Harding received a wound through the arm and since has had it amputated above the elbow. Lieut.-Col. Gustin was shot through the hand, but Col. Dave escaped unhurt.

SAN FRANCISCO, Dec 17.—The following dispatch was received from Los Angelos today: Watkins was indicted for murder by a special grand jury yesterday. This morn-ing he was brought into court for trial and plead guilty, when the Vigilance Committee entered the court room in large num-bers and took the prisoner from the hands of the Sheriff and hung him. Watkins was an Englishman and a Mormon. His pa-rents reside in Salt Lake City. He is known to have killed three men in this State, and confessed to six others.

CHATTANOOGA, Dec. 19 .- The order that three-fourths of the aggregate of veteran regiments must re-enlist to get furloughs, almost stops enlistments in many cases. more than one-fourth being either in the hospitals or prisoners, and men want to get home for the holidays.

THE peculiar faint or infection which we call SCROPULA lurks in multitudes of men. It either produces or is produced by an enproduced by an en-feebled, vitinted state of the blood, wherein that fluid becomes in-AYERS competent to sustain the vital forces in their vigorous action, and leaves the system to

1 ANTICLAN

contamination is variously caused by mercurial disease, low living, disordered digestion from unlicalthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver com-plaints; on the skin, eruptive and cutaneous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla is compounded from the most effectual anti-

dotes that medical science has discovered for

this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tu-berculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitu-Hence it tends to shorten, and does grently shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sursaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL. The World's Great Remedy for

Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.
